

"We evaluated multiple solutions for our future technology needs for the Court and we felt CMI's Authority Solution was the best fit for the Court moving forward. We have worked closely with CMI over the years and they have always been very responsive to the needs of the court."

– Rich Armstrong, Information Director for Medina Municipal Court.

CMI is committed to better government through better software. In order to deliver on this promise, CMI has crafted itself as a total solution company.

Our sophisticated software is just one element in the CMI equation. Our turnkey solutions are all inclusive.

CMI offers comprehensive software services from planning through system configuration, development, implementation, training and support. Your software is customized for your specific needs and is designed to streamline the entire office process. CMI keeps your software current with upgrades that change with your requirements - just download from our website. We are highly knowledgeable regarding hardware selection and stand by every product.

As an innovator and a leader in government office solutions, CMI will work within your budget to save your administration time and money. No organization is too big, no organization too small to benefit from our services.

"The technical services from CMI were completed professionally and with very little interruption to our office. CMI staff made every effort to make the transition run smoothly and took necessary steps to minimize disruption to the Court during business hours. The training and installation in preparation for Authority Court was excellent. CMI employees are well-prepared and patient working with court personnel."

– Judy Smith, Clerk of Court, Mount Vernon Municipal Court

Where Software is only Part of the Solution.

The @AUTHORITY Court Suite by CMI

A fully integrated suite of application software designed exclusively for courts, clerk's offices and related justice system agencies.

Creative Microsystems, Inc.

The @AUTHORITY Court Suite

Authority Court streamlines court processing, accounting and record management. Court case management includes traffic, criminal, civil, small claims, prosecutor, probation and jury management. Interactions with BMV, Supreme Court and other agencies is automated.

"The Court Compass™ from CMI has allowed us to operate much more efficiently as a court. As soon as the dispositioning is read in the courtroom it is immediately available to the clerks in the clerk's office for efficient processing of the paperwork and payments."

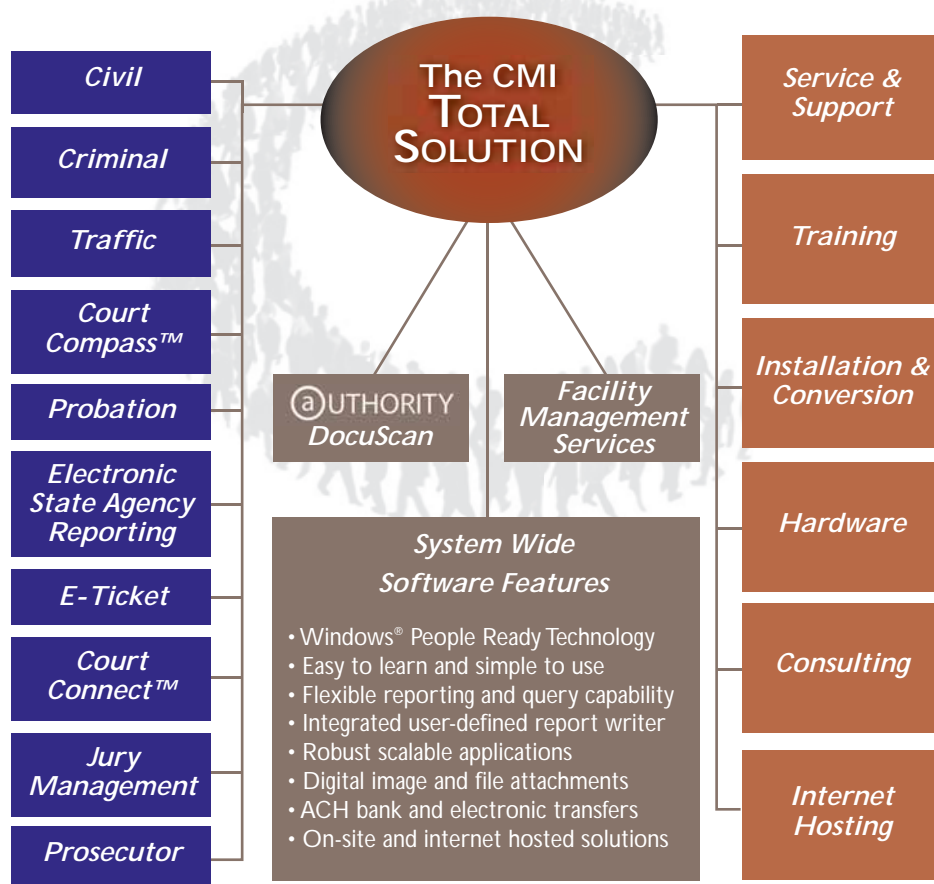

– Cindy Coffey, Clerk of Court, Miamisburg Municipal Court

Beyond the software.

CMI has a reputation as the turnkey solution company. We'll work to develop the most efficient installation for your applications, then define the hardware and system configuration suited to your requirements. After installation, we will work with your staff to ensure that everyone is proficient on the system. When questions arise, call our help desk for fast answers. At CMI we know that our commitment goes well beyond the capabilities of our software. Count on us to be there when you need us. *It's just the way we see it.*
